The Story of Custom Care

People will tell you that co-founder and registered nurse Angie Gerhard is the most compassionate person they know. Her husband Jeff knows that first hand, and fell in love with her while she was caring for his ill mother. Together, the two of them have built Custom Care's reputation almost exclusively through word-of-mouth, providing premier in-home care and companionship for some of the most prominent and powerful people in the community. They describe themselves and their staff as "faithful and caring servants" who carefully guard the privacy of every client, while empowering each to have the greatest quality of life possible while enjoying the comfort of their own homes.
